# CRYPTOCURRENCY

## IS THE FUTURE OF FINANCE

Cryptocurrency is a digital or virtual currency, secured by cryptography making it nearly impossible to counterfeit or double spend. Many cryptocurrencies are decentralized network based on blockchain technology. A defining feature of cryptocurrencies is that they are generally not issued by Central Authority.

A new survey shows that majority of world's population believe that crypto currency is the Future Of Finance. Both Democrats & Republicans believe crypto currency needs stronger regulations. with strong appeal to young people & minorities crypto currency has the potential to create a fairer economy.

## WHAT IS BEP-20 ( BSC)

**BNB** is an **Binance Coin**, is the native cryptocurrency of Binance. One of the largest cryptocurrency in the world. Initially launched in 2017 as an **ERC-20 token** on Ethereum Blockchain. BNB has since migrated to Binance own blockchain.

**Binance chain**, and now operates on Binance Smart Chain ( **BSC**). **BNB** as initially created as a utility token for Binance users to pay transaction fees at discounted rates, but it has since evolved to play much larger role within the Binance ecosystem and beyond.

# WHAT IS SMART CONTRACT ?

A Smart Contract is a self executing digital contract with terms written in code , designed to run on blockchain platform like Ethereum. It automate contract execution without Intermediaries, ensuring transparency, security and efficiency. Once deployed Smart Contract executes autonomously when predefined conditions are met. They find applications in finance, supply chain and more , reducing the need for manual processes and enhancing trust through blockchains decentralized nature. Despite advantages , challenges like code, vulnerabilities and legal consideration exist.

# ADVANTAGES OF BINANCE SMART CHAIN ( BSC )

## Security

Security is about protecting users, their data and their funds through the use of advanced technologies and multiple security measures.

## Transparency

Offering one of the most reliable and transparency, Where user can trust the products and ecosystem through continuous checks to improve safety and quality.

## Decentralization

Decentralisation is all about putting control back into the hands of many, instead of just a few. It means no single one has all the power. This helps to build trust because decisions are made by a group rather than one person or organisation.

## Scalability

Scalability is all about how well something can grow without losing performance. Think of a blockchain that starts small but gets bigger as more people use it.

# STELLAR COIN ECO-SYSTEM

Provide a high-level overview of  
**Stellar Coin.**

Explain the purpose of the project, its key features, and why it is being developed. Outline its goals for creating a decentralized, community-driven ecosystem for passive income, including staking, referrals, and other long-term use cases, like crowdfunding, bot trading, and web3.

# STELLAR COIN PROJECT OVERVIEW

**Stellar** is a international project which built on (BEP-20) **BSC** .It aims to offer passive income opportunities for users through staking rewards, referrals, and community-driven growth. The native token, Stellar Network, plays a central role in the ecosystem and will be used for staking, rewards, and future developments such as crowdfunding, automated bot trading, and a crypto card.

# STELLAR COIN

## VISION

**Stellarcoin** envisions a global community of users who can earn passive income, participate in decentralized finance (DeFi), and access financial services using a **(BEP-20) BSC** blockchain-based platform.

## MISSION

The mission is to create a sustainable ecosystem that rewards users for staking, referrals, and community growth, while providing access to a range of utility services, web3, trading and a crypto card.
